1	General	The plans show two 4.5' bike lanes and two sidewalks for the first segment. For the second, there is a a sidepath varying in width from 8' to 10' with a variable offset to the roadway. The second sidewalk terminates before the end of the project. This is the cross section that was agreed upon by the District, Town , Designer and CSE. Therefore, it is acceptable.	A	Noted.	CLS
