- Jernegan was present and stated she met with Valley, Cassidy and Cleary in the basement of the old Montessori school to look at the pipes and shutoff and Cleary explained the pipes that were in the building has the possibility of lead in the Solder in the joints of the pipes. Jernegan contacted Fullin and Bettencourt the Montessori Schools plumbers, they came to the property and stated the solder was on the outside of the pipes and this would not cause the problem. The Montessori School decided they would like to have the pipe from the shutoff to the school be tested.

- Cassidy and Jernegan agreed that the Montessori Schools contractor Farrissy would schedule with Cassidy. Farrissy would excavate and expose the pipe from the town shutoff to the building so the pipe would be available for testing.
