DPW Monthly Report November & December

DPW is pleased to announce we have again this year teamed up with the Water Co. on another water main replacement located on Summer Street. This job had multiple phases to include: Drainage, outfall pipe cleaning, sidewalk patching, paving and edge of road clean up. The property owners of this road have stated that they have never seen this much attention/ work be performed in this neighborhood for well over 50+ years.

In addition to Summer St. the Highway crew completed 3 mid-size drainage projects at the following locations:

Lamberts

Clough

Franklin

All three projects included new drainage structures, basin covers and pavement/ top dressing.

The Buildings and Grounds crew have been had at work, replacing interior doors at both the DPW and Town Hall , assisted with Holiday decorations , building yard waste clean-up and is always on hand for an emergence call... this winter the B&G crew have responded to 6 no heat, 4 plugged drain, and 8 building alarm calls...

Both the Highway and B&G crew have been working extremely hard getting our roads and buildings clean (leaf removal). We continue to clean over 400 basins and have paint roughly 2 ½ miles of lines each winter.

Thank you
