**Date: Sept 19th, 2023**

**Subject: Summer Street Water Main Improvements Project**

Dear Resident:

The Tisbury Water Works has hired a contractor (Fenner Construction, LLC) to improve the water system by replacing the water main along Summer Street including the intersections of Pine Street and Oak Street. Due to the nature of the work, you may experience interruption to your water service along with limited vehicle and pedestrian access starting **September 19, 2023**, and continuing for approximately eight weeks.

If your property has a lead service line, Tisbury Water Works recommends you contact a contractor about replacing your lead service line. Your service line runs from the water main to the inside connection and is the responsibility of the homeowner.

For additional project information and daily construction updates, please visit the Town's website at [www.tisburyma.gov/tisbury-water-works](http://www.tisburyma.gov/tisbury-water-works). If you are unsure if your property has a lead service line, our operators are available to observe your service from the building interior. Please note that water service materials inside your property may differ than your buried water service material.

If you have any questions or issues during this construction project, please call Tisbury Water Works at **(508) 693-3100**.

Thank you for your cooperation.

Sincerely

James Cleary, Superintendent

Tisbury Water Works
