Subject: Summer Street Water Main Improvements Project - UPDATE

Dear Resident:

Beginning **November 6, 2023**: Fenner Construction, LLC will be connecting service lines to the newly installed water main. There may be temporary interruptions to the water service on your property while this work occurs over the next month. Service interruptions should only occur while they are making the connection from your service to the water main.

If your property has a lead service line, Tisbury Water Works recommends you contact a contractor about replacing your lead service line. Your service line runs from the water main to the inside connection and is the responsibility of the homeowner. If during the connection of your service, it is found that you have lead at this connection point we will notify you.

If you have any questions or issues during this construction project, please call Tisbury Water Works at **(508) 693-3100**.

Thank you for your cooperation.

Sincerely

Brian Patrick Hall

Assistant Water Superintendent

Tisbury Water Works
