DPW Monthly Report for June, July, and August

The DPW has been extremely busy this summer, and I am pleased to announce we are checking boxes off our pavement managing list. I can not express how proud I am with my DPW crew, these individuals worked during the swelting heat with little to no complaints, while performing quality work in a timely manner.

The DPW crew found themselves repairing several basins, installed new leaching tanks, prepped roadways for paving, landscaped our parks and town building and painted every stop line and crosswalk in Town with a walk behind machine.

In July we found ourselves working long hours late into the night assist Stop and Shop with a building that had safety concerns, DPW set up roadside barriers, signage and installed a temporary crosswalk on Water St.

In August, we found ourselves construction barricades, blocking off roads, storing soccer and volleyball nets for this years Beach Road Concert.

DPW is pleased to announce that we have recently added a few new vehicles new to our freight. We finally replaced our 30-year-old work horse of a roller with a new 2-ton vibrating roller, couple that with a new multi-use trash truck that will double as a plow truck in the winter our crew will be finally driving in stile.

Road work was plentiful this summer, we paved and installed 250' of new sidewalks on Delano and spent 2+ weeks getting Daggett Ave ready for paving in which they had to installed over 500 linear feet of curbing, repaired 3 basins in between all this runaround we found time to install basins on on Owen Little way that was designed by UNH, this was a joint venture with TWI with DPW performing the heavy lifting.

Looking forward to this fall and early winter, DPW will be installing drainage and pavement on Oak Tree, Pine Tree, Harborview, and Grove St....not to mention installing the newly completed Katherine Cornell Steeple.

Thank You
Kirk Metell
