### DPW Monthly Report:

March 2022

The month of March has been extremely busy for the DPW, we have not let the cold weather slow or progress. Below you will see a few of the projects we have accomplished. I am very pleased with my crews performance, we have been tested all winter with several different snow and wind events and this group of Men and Women have responded to every call.

The Dpw has responded to nine different snow events this winter, after each snow event we evaluate both our road and drainage structures for damages/defects. The DPW has repaired roughly 25 potholes using roughly 55 bags of emergence cold patch, in addition we have rebuild 5 basins at the following locations (2 on Oak Tree lane, 1 on Union Street, 1 on Laggon Pond Road and 1 on Franklin).

In addition to Road work, the DPW with the help of Lawrence Lynch rebuilt the retaining basin located on Edgartown Road adjacent to Island Elderly Housing (I.E.H). this retaining basin serves a dual role, it relieves storm water from Edg. Rd And I.E.H. Parking Lot

Just in the past 3 weeks, the DPW has worked seamlessly with Lawrence Lynch and the Tisbury School getting a laydown area ready for O.P.M. office trailer. This site will serve as a homebase for the building contractor for the next 24 months. This site required stump removal, additional fill and heavy compaction

Thanks to funding from CPC, Veterans Park receives new hoops (installed by DPW) Later this spring, DPW will add a fresh coat of paint and lines to the court and a few new benches .

The COA is received a long overdue facelift, last year this building received a new roof and this year we are installing sidewall shingles. Later this spring we will apply a new coat of paint on all the exterior trim and doors.

The DPW working closely with Lawrence Lynch has graded Herring Creek Road, this private dirt road gets graded twice a year by the Town, normally these grading happens in early spring (April) and them again in the fall (September). Please note the reason the Town performs this yearly maintenance is because we own a public beach at the end of this road, and we make sure it is passable for emergency vehicles.

DPW is pleased to announce we have finalized our list of paving projects slated for this year. please note we will be splitting these projects into 2 categories (Spring and Fall). see below:

Spring:

Authier- 1 ½' overlay

Spring Street- from Franklin to Main- 1 ½ "Overlay

Look St- from West Williams to Center- 1 ½" Overlay

Winyah- Edg Rd down 150' and then base of hill to dirt road- 1 ½" Overlay

Fall:

Daggett- from Main to Franklin- 1 ½ overlay with possible removal on old sidewalk

Oak Tree Lane- Full Reclamation

Pine Tree Lane- Full Reclamation
