1		A review of the Massachusetts Department of Environmental Protection (DEP) sites list for releases of oil and hazardous materials (OHM) revealed a number of listed sites. To assess the potential to encounter contamination from these sites, a file review was performed. Based on the information obtained during the DEP file review, RTN 4-1136, RTN 4-11082, RTN 4-12524, RTN 4-13294, RTN 4-14290, RTN 4-17249, and RTN 4-17583 may environmentally impact the soil and groundwater within the project area. Please see the uploaded summary of potentially impacting releases and HASP recommendations for details. It is recommended that the summary be included in the Special Provisions package so that the HASP will be properly implemented and executed in the areas where OHM contamination will likely be encountered.	A	Noted.	JAT
